

PackDraw & Mystery-Box Micro-Influencer Lists

Competitive-intelligence roster — PackDraw, IcyBox, Cases.GG, SkinClub, HypeDrop, RillaBox, CSGORoll & related. Compiled 2026-07-19. Focus: ≤1M followers.

100 rows, ranked biggest → smallest by audience. Every row is a real creator or real promo artifact — none invented. Rows are **tiered by how resolved each creator's identity/metrics are**: **Tier 1 verified** (37) real profile + confirmed brand promo · **Tier 2 code-confirmed** (24) real code/name, handle+counts pending · **Tier 3 niche-relevant** (16) real case/box creator, target-brand tie TBD · **Tier 4 unresolved promoter** (17) real promo video, channel to resolve · **ref above-1M** (6) real promoter above the ≤1M focus.

Honesty note: follower counts are mostly ESTIMATE / N/A because social & stats sites block automated reads (not bypassed). Only Tier-1 rows are fully verified; Tiers 2–4 are a ranked outreach *worklist*. No handles or numbers were fabricated to reach 100.
